# Annual Financial Statements

## FOR THE YEAR ENDED

# 30 JUNE 2012

I am responsible for the preparation of these annual financial statemer	nts, which are set out on
pages to, in terms of Section 126(1) of the Municipal Finance	Management Act 56 of 2003,
and which I have signed on behalf of the Municipality.	
I certify that the salaries, allowances and benefits of councillors as disc	closed in note 31 of these
Annual Financial Statements are within the upper limits of the framewo	ork envisaged in Section 219
of the Constitution, read with the Remuneration of the Public Officer Bo	earers Act and the Minister
of Provincial and Local Government's determination in accordance wit	h this Act.

Cash and cash equivalents at the end of the year	36	38,061,942	72,123,485

The Municipality applied for a loan of R25,0 mil before year end for bridging finance provided by the Municipality for capital expenses incurred during the year under review. The loan was approved and received after year end, which will significantly improved the cash flow position of the Municipality.

2011

### 1. GENERAL INFORMATION

Hessequa Municipality (the municipality) is a local government institution in Riversdale, Western Cape. The principal activities of the municipality are disclosed in the Annual Report and are prescribed by the Constitution.

The municipality adopted a phased-in approach in order to comply fully with the implementation of GRAP. The municipality is classified by the National Treasury as a medium capacity municipality and must comply with GRAP by 30 June 2009. The municipality, however, took advantage of the transitional provisions in Directive 4 from the Accounting Standards Board and is fully compliant with GRAP as at 30 June 2012.

2. INVENTORY

<u>Total</u>	790,136	818,150

#### Water Inventory

The Municipality also has raw, untreated water in stock in the Olive Grove Dam of about 434 500 cubic meters. In its present form, this water stock cannot be sold and needs to be purified and therefore, it's fair value has been estimated at the direct cost of the department less cost of chemicals, divided by the kiloliters sold.

Inventories are held for own use with the result that no write downs of Inventory to Net Realisable Value was required.

No Inventories have been pledged as collateral for Liabilities of the municipality.

The cost of Inventories recognised as an expense during the period was R585,356 (2011: R574,960).

3. NON-CURRENT	ASSETS HEL	D-FOR-SALE
----------------	------------	------------

Property held-for-sale at beginning of year as restated	87,000	150,500
Correction of errors	0	-63,500
Transfers from PPE	264,000	0
Disposals	-40,000	
Less: Impairment	-69,500	0
Total assets classified as held-for-sale	241,500	87,000

The municipality intends to dispose of parcels of land it no longer utilises within the next 12 months. Test for impairment loss was done and recognised where applicable.

The average credit period for Consumer Debtors is 30 days. No interest is charged on trade receivables for the first 30 days from the date of the invoice. Thereafter interest is charged on the outstanding balance at prime plus 1%. The municipality strictly enforces its approved credit control policy to ensure the recovery of Consumer Debtors.

## Summary of Debtors by Customer Classification

Balance at end of year			8,929,783	7,181,954

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 20, HINE 2012

In determining the recoverability of a Consumer Debtor, the municipality considers any change in the credit quality of the Consumer Debtor from the date credit was initially granted up to the reporting date, and places strong emphasis on verifying the indigent status of consumers. The concentration of credit risk is limited due to the customer base being large and unrelated. Accordingly, management believes that there is no further credit provision required in excess of the Provision for Impairment.

Provision for impairment of Consumer Debtors have been made by an assessment of each individual debtors account. Assumptions regarding recoverability were made based on investigations of all consumer balances outstanding.

The average credit period for government grants and subsidies is dependant on the Government Department involved and the nature of claims. No interest is charged on outstanding government grants and subsidies. The subsidies are payable to the municipality per allocations made in the Division of Revenue Act or based on agreements between the municipality and the relevant departments. Government grants and Subsidies receivable are past due and not impaired as management has no concern over the credit quality of these assets

At 30 June 2012 consumer debtors of R5,644,092 (2011: R 9,960,544) were past due but not impaired. The age analysis of these consumer debtors is as follows:

31 - 60 Days	2,181,162	1,780,710
61 - 90 Days	813,404	771,456
91 Days +	2,649,526	7,408,378
Total	5,644,092	9,960,544

No discounting calculation has been considered on the outstanding arrangements due to the fact that the provision for bad debts on these accounts are considered to be adequate to ensure that these balances are disclosed at fair value.

5. TRADE RECEIVABLES FROM NON-EXCHANGE TRANSACTIONS		
		Restated
Assessment rates debtors	10,680,501	9,900,738

- Repayment of Long-term Liabilities as set out in Note 19	8,652,029	8,247,746
- Attributable to Unspent Conditional Grants as set out in Note 17	2,841,464	6,925,194
- Attributable to Housing Reserve as set out in Note 22	53,575	49,838
- Attributable to Trust Funds - see note 48	1,583,464	1,544,492
- Available for Operational Account	21,108,632	53,253,622
	34,239,163	70,020,893

Short term investment Deposits expired during the year and were invested in Sanlam investment portfolio's. The portfolio statement at 30 June 2012 indicates a market movement of R10 654. This adjustment was not done due to the immateriality of the amount involved. The investments have a maturity period of less than 3 months and earn interest varying from 5.5% to 6.63%.

The management of the Municipality is of the opinion that the carrying value of Short-term investment Deposits recorded at amortised cost in the Annual Financial Statements approximate their fair value.

The fair value of Short-term Investment Deposits was determined after considering the standard terms and conditions of agreements entered into between the Municipality and financial institutions.

## 9. OPERATING LEASE ASSETS

Operating Leases are recognised on the straight-line basis as per the requirement of GRAP 13. In respect of Non-cancellable Operating Leases the following assets have been recognised:

Balance at beginning of year	231,488.63	221,640
Operating Lease expenses recorded	-982,578.35	-455,967
Operating Lease payments effected	990,519.78	465,816
Total Operating Lease Assets as restated	239,430.06	231,489

2011

### 9. OPERATING LEASE ASSETS - (continued)

### 9.1 Leasing arrangements

Operating Leases relate to Property owned by the municipality with lease terms of between 1 to 25 years, with an option to extend. All operating lease contracts contain market review clauses in the event that the lessee exercises its option to renew. The lessee does not have an option to purchase the property at the expiry of the lease period.

### 9.2 Amounts receivable under Operating Leases

At the Reporting Date the following lease receipts were receivable under Operating Leases, at variable periods, for Property, Plant and Equipment, which are receivable as follows:

Up to 1 year	1,000,822	806,501
2 to 5 years	1,853,073	1,477,033
More than 5 years	100,877	111,590
Total Operating Lease Arrangements	2,954,772	2,395,125

The impact of charging the escalations in Operating Leases on a straight-line basis over the term of the lease has been a decreas in current year income of R7 941 (2011: R9 849).

The Municipality has taken advantage of ASB Directive 4 par 75 and 78, which states that certain classes of property, plant and equipment may not be recognised and measured in accordance with the Standard of GRAP on Property, Plant and Equipment in individual entities' financial statements. During the 2012 financial year those items of Property, Plant and Equipment which have not previously been unbundled, were componetised which resulted in the reclassification and restatement of comparative amounts.

The following properties were identified to be sold, but there is no resolution, and no specific time frame has been approved. The conditions in GRAP 100 have not been met and therefore these properties were not disclosed as Non-current Assets Held for Sale.

13.1 Reconciliation of the Provision for Impairment	
Balance at beginning of year 0	0
Amounts written off as uncollectable 0	0
Total 0	0

The management of the municipality is of the opinion that the carrying value of Long-term Receivables recorded at amortised cost in the Annual Financial Statements approximate their fair values.

The fair value of Long-term Receivables was determined after considering the standard terms and conditions of agreements entered into between the municipality and other parties as well as the current payment ratio's of the municipality's debtors.

In determining the recoverability of a Long-term Receivable, the municipality considers any change in the credit quality of the receivable from the date credit was initially granted up to the reporting date. The concentration of credit risk is limited due to the customer base being large and unrelated. Accordingly, management believes that there is no further credit provision required in excess of the Provision for Impairment.

#### Sport clubs and other

The council granted loans at a interest rate of 8% to the following:

Pikkewouter Pre-primary school - Stilbaai

Heidelberg Gholfklub

These loans are repayable by the year 2022.

### 14. CONSUMER DEPOSITS

Electricity and Water	3,254,337	3,253,353
Balance 30 June 2012	3,254,337	3,253,353

Consumer Deposits are paid by consumers on application for new water and electricity connections. The deposits are repaid when the water and electricity connections are terminated. In cases where consumers default on their account, the Municipality can utilise the deposit as payment for the outstanding amount. No interest is paid on Consumer Deposits held. The management of the Municipality is of the opinion that the carrying value of Consumer Deposits approximate their fair value.

The fair value of Consumer Deposits was determined after considering the standard terms and conditions of agreements entered into between the Municipality and its consumers.

#### 15 PROVISIONS

Performance Bonus	829,452	758,713
Pension Fund Arrears Contribution	6,678,070	5,305,302
Current Portion of Post-retirement Medical Aid Benefits Liability (See Note 20.1 below)	1,464,260	1,364,892
Current portion of Provision for Ex-Gratia Pensioners Benefit Liability (See Note 20.2 below)	14,279	9,188
Current portion of Provision for long-service Awards (See note 21 below)	445,349	342,516
Total Provisions	9,431,410	7,780,611

#### 15. PROVISIONS - (continued)

Performance bonuses accrue to employees half yearly, subject to certain conditions. The provision is an estimate of the amount due to staff at the reporting date.

#### SALA Pension Fund

Notwithstanding the fact that the SALA Pension Fund litigation against the municipality has not been tested in a court of law, a provision has been made in the Financial Statements. The amount is for increased employer contributions to the SALA Pension Fund.

#### Cape Joint Pension Fund

The Fund's actuary has calculated that there is a shortfall in the investment returns in respect of the defined benefits component of the Fund. The Municipality is liable for a pro rata payment of R1,459,697 (2011: R1 253 481.11).

#### The movement in current provisions are reconciled as follows:-

The average credit period on purchases is 30 days from the receipt of the invoice, as determined by the MFMA, No interest is charged for the first 30 days from the date of receipt of the invoice. Thereafter interest is charged in accordance with the credit policies of the various individual creditors that the Municipality deals with. The management of the Municipality is of the opinion that the carrying value of Creditors approximate their fair value. The fair value of Creditors was determined after considering the standard terms and conditions of agreements entered into between the Municipality and other parties.

#### 17. UNSPENT CONDITIONAL GRANTS AND RECEIPTS

19. LONG-TERM LIABILITIES

Long-term Liabilities have been utilized in accordance with the MFMA. Current portion of long-term liabilities is fully

invested in ringfenced financial instruments. See note 8 for more detail.

The management of the municipality is of the opinion that the carrying value of Long-term Liabilities recorded at amortised cost in the Annual Financial Statements approximate their fair values.

The municipality operates an unfunded defined benefit plan for all its employees. Under the plan, a Long-service Award is payable after 5 years of continuous service and every 5 years thereafter to employees. The provision is an estimate of the long-service based on historical staff turnover. No other long-service benefits are provided to employees.

The most recent actuarial valuations of plan assets and the present value of the defined benefit obligation were carried out at 30 June 2011 by Mr C Weiss, Fellow of the Actuarial Society of South Africa. The present value of the defined benefit obligation, and the related current service cost and past service cost, were measured using the Projected Unit Credit Method.

At year end, 489 employees were eligible for Long-services Awards.

The Current-service Cost and interest cost for the year ending 30 June 2012 is estimated to be R434,202 and R236,934 respectively, whereas the cost for the ensuing year is estimated to be R468,203 and R258,717 respectively.

The principal assumptions used for the purposes of the actuarial valuations were as follows:
--

Discount Rate	7.83%	7.83%
General salary inflation	6.28%	6.28%
Net Effective Discount Rate	1.46%	1.46%
Mayamanta in the present value of the Defined Banefit Obligation were as follows:		
Movements in the present value of the Defined Benefit Obligation were as follows:	2 102 752	2 621 000
Balance at the beginning of the year	3,193,753	2,621,909 393,951
Current service costs	434,202	
Interest cost	236,934	235,457

Municipal	295,313	287,505
Churches	0	0
Total Property Valuations	14,012,917	13,874,327

Assessment Rates are levied on the value of land and improvements, which valuation must be performed every four years. Interim valuations are processed on an annual basis to take into account changes in individual property values due to alterations, consolidations and subdivisions.

Rates are levied annually on property owners and are payable in 12 monthly installments. Interest is levied on outstanding rates amounts. An uniform general residential rate of 0.004224 c/R (2010/2011: 0.003690 c/R is applied to property valuations to determine assessment rates. The current property valuations were done according to the Local Government: Municipal Property Rates Act 6 of 2004, with implementation date 1.1 with 2000.

The Municipality will obtain and implement a new property valuation roll on 1 July 2014.

The rates tariffs for the 2011/2012 financial year was as follows:

	TOWNS
Residential	.004224 c/R
Vacant Land	.005909 c/R
Agriculture	.001056 c/R
State	.008849 c/R
Business	.004324 c/R

A rebate of R50 000 on the value of the property (2010/2011: R50 000) was allowed on residential properties, whilst rebates of 10% - 40% were applied to pensioners, based on the annual income of the ratepayer. A discount of 10% was granted to private owned developments.

25. SERVICE CHARGES

## NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2012 2011 R R R

## 41.1 Services rendered to Related Parties

During the year the municipality rendered services to the following related parties that are related to the municipality as indicated:

	Rates	Service	Sundry	Outstanding
	Charges	Charges	Charges	Balances
	R	R	R	R
For the year ended 30 June 2012				
Councilors	17,722	107,748	775	11,550
Municipal Manager and Section 57 Personnel	42,898	103,128	387	10,870
Municipal Entities	0	0	0	0
Total	60,620	210,876	1,162	22,420
For the year ended 30 June 2011				
Councilors	21,697	86,226	668	11,899
Municipal Manager and Section 57 Personnel	42,162	101,234	6,061	12,119
Municipal Entities	0	0	0	0
Total	63,859	187,461	6,729	24,018

The services rendered to Related Parties are charged at approved tariffs that were advertised to the public. No Bad Debts were written off or recognised in respect of amounts owed by Related Parties.

The amounts outstanding are unsecured and will be settled in cash. Consumer Deposits were received from Councilors, the Municipal Manager and Section 57 Personnel not on the salary deduction list. No expense has been recognised in the period for bad or doubtful debts in respect of the amounts owed by related parties.

### 41. RELATED PARTY TRANSACTIONS - (continued)

41.2 Loans granted to Related Parties
In terms of the MFMA, the municipality may not grant loans to its Councilors, Management, Staff and Public with effect from 1 July 2004. Loans, together with the conditions thereof, granted prior to this date are disclosed in Note 13 to the Annual Financial Statements.

#### 41.3 Compensation of Related Parties

Compensation of Key Management Personnel and Councilors is set out in Notes 30 and 31 respectively, to the Annual Financial Statements.

#### 41.4 Purchases from Related Parties

The municipality procured services from the following service providers, which are considered to be Related Parties:

				2012	2011
				R	R
Service Provider	Related		Municipal		
	Person	Capacity	Capacity		
			Municipal		
Fynbos Guest House	Ms S Jacobs	Owner	Manager	800	3,940
Autozone	Mr A Stroebel	Manager	Councilor	0	6,742
				800	10,682

Ms S Jacobs is the spouse of the Municipal Manager. The transactions were concluded in compliance with the municipality's Supply Chain Management policy. The transactions are considered to be at arm's length.

Councilor A Stroebel was elected as a councilor on 18 May 2011. He is no longer the manager of Autozone, and does not belong to nor have any enterprises with which the Municipality conducts business.

### 42. COMMITMENTS FOR EXPENDITURE

Capital	Commit	ments	

<u>Capital Commitments</u>

- Approved and Contracted for:-	6,390,895	13,363,222
Total Capital Commitments	6,390,895	13,363,222
This expenditure will be financed from:		
- Own funds, grants and subsidies and external finance	6,390,895	13,363,222
	6,390,895	13,363,222

### 43. AFTER BALANCE SHEET EVENTS

No events having financial implications requiring disclosure occurred subsequent to 30 June 2012.

2011

#### 44. RETIREMENT BENEFIT INFORMATION

The personnel of the Hessequa Municipality are members of the funds as set out below. These schemes are subject to either a tri-annual, bi-annual or annual actuarial valuation, details which are provided below. The Cape Joint Pension Fund is defined benefit fund, whereas the Cape Joint Retirement Fund, Municipal Councilors Fund, The Provident Fund and The National Fund for Municipal Workers are defined contribution funds. Sufficient information is not available to use defined benefit accounting for the pension and retirement funds, due to the following reasons:

- The assets of each fund are held in one portfolio; these assets are not nationally allocated to each of the participating employers.
- One set of financial statements are compiled for each fund and financial statements are not drafted for each participating employer.
- The same rate of contributions applies to all participating employers.

It is therefore seen that each fund operates as a single entity and is not divided into sub-funds for each participating employer.

The only obligation of the municipality with respect to the retirement benefit plans is to make the specified contributions. Where councilors / employees leave the plans prior to full vesting of the contributions, the contributions payable by the municipality are reduced by the amount of forfeited contributions.

#### 44.1 DEFINED BENEFIT SCHEMES

#### Cape Joint Pension Fund

The statutory valuation performed as at 30 June 2010 revealed that the fund had a surplus of R0 (30 June 2009: R0) million, with a funding level of 100 % (30 June 2009: 100%) and a solvency reserve with a closing balance of R4.9 (30 June 2009: R220,6) million. The contribution rate paid by the members 9,00% and the municipalities 18,00% is less than the recommended contribution rate of 32.1%.

Refer to note 15, for details regarding a provision for a shortfall in the investment returns in respect of the defined benefits component of the Fund.

#### 44.2 DEFINED CONTRIBUTION SCHEMES

#### **Cape Joint Pension Fund**

This scheme was established to accommodate the unique characteristics of contract employees and 'cost to company' employees. All existing members were given the option to transfer to the defined contribution plan before 1 July 2003. The actuary report certified that the structure of the assets is appropriate relative to the nature of the liabilities, assuming a smoothed bonus philosophy, and given normal circumstances.

The statutory valuation performed as at 30 June 2011 revealed that the fund had a surplus of R67,977 (30 June 2010: R190,464) million, with a funding level of 98,1% (30 June 2010: 100%). The contribution rate paid by the members 9,00% and the municipalities 18,00% is less than the recommended contribution rate of 32.1%.

#### Cape Joint Retirement Fund

The scheme is subject to an annual actuarial valuation. The statutory valuation performed as at 30 June 2011 revealed that the assets of the fund amounted to R9 930,837 (30 June 2010: R7 740,205) million, with funding levels of 100,3% and 116,9% (30 June 2010: 99,9% and 100,3%) for the Share Account and the Pensions Account respectively. The contribution rate paid by the members (7,50%) and the municipalities (19,50%) is sufficient to fund the benefits accruing from the fund in the future.

This scheme was established to accommodate the unique characteristics of contract employees and 'cost to company' employees. All existing members were given the option to transfer to the defined contribution plan before 1 July 2003. The actuary report certified that the structure of the assets is appropriate relative to the nature of the liabilities, assuming a smoothed bonus philosophy, and given normal circumstances.

## Municipal Councilors' Pension Fund

The scheme is subject to an annual actuarial valuation. The last statutory valuation was performed as at 30 June 2010.

The statutory valuation performed as at 30 June 2010 revealed that the assets of the fund amounted to R1 483, 786 381 (30 June 2009: R1 341, 935 205) million. The contribution rate paid by the members (13,75%) and the municipalities (15,00%) is sufficient to fund the benefits accruing from the fund in the future.

#### SALA Pension Fund:

The scheme is subject to an annual actuarial valuation. The last statutory valuation was performed as at 30 June 2010.

The statutory valuation performed as at 30 June 2010 revealed that the assets of the fund amounted to R7 110,3 (30 June 2009: R6 303,7) million, with funding levels of 96,0% (30 June 2009: 96,0%). The contribution rate paid by the members (8,6%) and Council (20,78%) is sufficient to fund the benefits accruing from the fund in the future.

2011

#### South African Municipal Workers Union National Provident Fund

The scheme is subject to an tri-annual actuarial valuation. The last statutory valuation was performed as at 30 June 2005. The statutory valuation performed as at 30 June 2005 revealed that the fund had a funding ratio of 100.0% (30 June 2002: 100,0%). The contribution rate paid by the members (not less than 5,00%) and Council (not less than 12,00%) is sufficient to fund the benefits accruing from the fund in the future.

The following table reflects the information of the defined benefit retirement, pension and provident funds to which councilors and employees belong. The relevant law requires every fund to do an actuarial valuation every three years.

	<b>Actuarial Value-</b>	Last	Total	Total	Contributing
	action done	Accrual	Assets	Liabilities	Members
	every:	Valuation	R,000	R,000	
Municipal Councilors Pension Fund	Year	June 2010			4
Cape Joint Retirement Fund	Year	June 2011	9,845,000	9,734,441	226
Cape Joint Pension Fund	Year	June 2011	2,971,150	3,030,085	41
SAMWU Provident Fund	3 Years	June 2005	1,511,461	1,447,663	47
SALA Pension Fund	3 Year	June 2010	7,110,300	7,417,900	171

An amount of R8,670 million (2011:R8,659 million) was contributed by Council towards councilor and employee retirement funding. These contributions have been expensed.

#### 45. GUARANTEES

Guarantees were issued in favor of Eskom in the amount of R70 200.

### 46. IN-KIND DONATIONS AND ASSISTANCE

The municipality did not receive any in-kind Donations and Assistance during the year under review.

#### 47. BUDGET RECONCILIATION

51.2 Fair Value of Financial Instruments
In accordance with IAS 39.09, the Fair Values of Financial Assets and Financial Liabilities, together with the carrying amounts shown in the Statement of Financial Position, are as follows:

The management of the municipality is of the opinion that the carrying value of Financial Assets and Financial Liabilities recorded at amortised cost in the Annual Financial Statement approximate their fair values. The fair value of Financial Assets and Financial Liabilities were determined after considering the standard terms and conditions of agreements entered into between the municipality and other parties as well as the current payment ratio's of the municipality's debtors. (All carrying amounts listed below = fair value and no disclosure of fair value is required when the carrying amount of financial instruments is a reasonable approximation of fair value)

#### 51. FINANCIAL INSTRUMENTS - (continued)

#### Assumptions used in determining Fair Value of Financial Assets and Financial Liabilities

The fair value of Financial Assets and Financial Liabilities were determined after considering the standard terms and conditions of agreements entered into between the municipality and other parties as well as the current payment ratio's of the municipality's debtors.

#### 51.3 Capital Risk Management

The municipality manages its capital to ensure that the municipality will be able to continue as a going concern while delivering sustainable services to consumers through the optimisation of the debt and equity balance. The municipality's overall strategy remains unchanged. The capital structure of the municipality consists of debt, which includes the Long-term Liabilities disclosed in Note 19, Bank, Cash and Cash Equivalents and Equity, comprising Funds, Reserves and Accumulated Surplus and the Statement of Changes in Net Assets.

#### 51.4 Significant Accounting Policies

Details of the significant Accounting Policies and methods adopted, including the criteria for recognition, the basis of measurement and the basis on which income and expenses are recognised, in respect or each class of Financial Asset, Financial Liability and Equity Instrument are disclosed in the Accounting Policies to the Annual Financial Statements.

#### 51.5 Financial Risk Management Objectives

Due to the largely non-trading nature of activities and the way in which they are financed, municipalities are not exposed to the degree of financial risk faced by business entities. Financial Instruments play a much more limited role in creating or changing risks that would be typical of listed companies to which the IAS's mainly apply. Generally, Financial Assets and Liabilities are generated by day-to-day operational activities and are not held to manage the risks facing the municipality in undertaking its activities.

The Directorate: Financial Services monitors and manages the financial risks relating to the operations through internal policies and procedures. These risks include interest rate risk, credit risk and liquidity risk. Compliance with policies and procedures is reviewed by the internal auditors on a continuous basis, and annually by external auditors. The municipality does not enter into or trade financial instruments for speculative purposes.

Internal audit, responsible for initiating a control framework and monitoring and responding to potential risk, reports periodically to the municipality's audit committee, an independent body that monitors the effectiveness of the internal audit function.

#### 51.6 Market risk

The municipality's activities expose it primarily to the financial risks of changes in interest rates (see Note 49.7 below). No formal policy exists to hedge volatilities in the interest rate market.

#### 51.7 Interest Rate Risk Management

Interest Rate Risk is defined as the risk that the fair value or future cash flows associated with a financial instrument will fluctuate in amount as a result of market interest changes.

Potential concentrations of interest rate risk consist mainly of fixed deposit investments, long-term deposit investments, other debtors, short-term investment deposits and bank and cash balances.

The municipality is exposed to interest rate risk as the municipality borrows funds at both fixed and floating interest rates. The risk is managed by the municipality by maintaining an appropriate mix between fixed and floating rate borrowings, by the use of interest rate swap contracts and forward interest rate contracts. Hedging activities are evaluated regularly to align with interest rate views and defined risk appetite; ensuring optimal hedging strategies are applied, by either positioning the balance sheet or protecting interest expense through different interest rate cycles.

#### 51.8 Liquidity Risk Management

Ultimate responsibility for liquidity risk management rests with the Council. The municipality manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities.

### 51. FINANCIAL INSTRUMENTS - (continued)

#### Liquidity and Interest Risk Tables

The following tables detail the municipality's remaining contractual maturity for its non-derivative financial liabilities. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the municipality can be required to pay. The table includes both interest and principal cash flows.

	Average effective			More than	
Description	interest rate	Within 1 year	2 - 5 years	5 Years	Total
·	%	R	R	R	R
30 June 2012					
Development Bank	9.33% - 11.56%	11,968,322	32,216,033	17,716,586	61,900,941
First National Bank	9.33% - 11.56%	2,520,900	10,083,598	7,562,699	20,167,197
		14,489,222	42,299,631	25,279,285	82,068,138
30 June 2011					
Development Bank	9.33% - 11.56%	11,966,758	37,372,829	23,889,202	73,228,788
First National Bank	9.33% - 11.56%	2,517,643	10,083,624	10,086,830	22,688,096
		14,484,400	47,456,452	33,976,032	95,916,884

The municipality has access to financing facilities, the total unused amount which is R100,000 at the reporting date. The municipality expects to meet its other obligations from operating cash flows and proceeds of maturing financial assets. The municipality expects to maintain current debt to equity ratio. This will be achieved through increasing tariffs and the increased use of unsecured bank loan facilities.

#### 51.9 Credit Risk Management

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the municipality.

Potential concentrations of credit risk consist mainly of fixed deposit investments, long-term debtors, consumer debtors, other debtors, short-term investment deposits and bank and cash balances.

The municipality limits its counterparty exposures from its money market investment operations (financial assets that are neither past due nor impaired) by only dealing with well-established financial institutions of high credit standing. The credit exposure to any single counterparty is managed by setting transaction / exposure limits, which are included in the municipality's Investment Policy. These limits are reviewed annually by the Chief Financial Officer and authorised by the Council.

Consumer debtors comprise of a large number of ratepayers, dispersed across different industries and geographical areas. Ongoing credit evaluations are performed on the financial condition of these debtors. Consumer debtors are presented net of an allowance for doubtful debt.

In the case of debtors whose accounts become in arrears, it is endeavored to collect such accounts by "levying of penalty charges", "demand for payment", "restriction of services" and, as a last resort, "handed over for collection", whichever procedure is applicable in terms of Council's Credit Control and Debt Collection Policy.

Long-term Receivables and Other Debtors are individually evaluated annually at balance sheet date for impairment or discounting. A report on the various categories of debtors is drafted to substantiate such evaluation and subsequent impairment / discounting, where applicable.

The municipality does not have any significant credit risk exposure to any single counterparty or any group of counterparties having similar characteristics. The municipality defines counterparties as having similar characteristics if they are related entities. The credit risk on liquid funds is limited because the counterparties are banks with high credit-ratings.

The maximum credit risk exposure in respect of the relevant financial instruments is as follows:

Fixed Deposit Investments	34,239,163	70,020,893
Long-term Receivables	1,777	1,643
Consumer Debtors	17,188,592	16,448,019
Other Debtors	10,984,818	7,697,287
Bank and Cash Balances	3,822,779	2,102,592
Maximum interest and credit risk exposure	66,237,129	96,270,434

2011

Losses of up to 12% is regarded as normal. This has not been included in the figures above.

The loss of water is indicative of ageing infrastructure assets requiring improved maintenance and upgrading. There is a significant improvement in the losses of water in the whole Municipal area. This is the result of capital invested in the upgrading of the infrastructure. Council is however currently investigating further possibilities to further reduce the loss. The water infrastructure is very old, and millions of Rands is required to finance the backlog.

#### 54. CONTINGENT LIABILITIES

During the year under review, Council was not envolved in unresolved litigation. The normal handovers of outstanding debtors accounts was the only legal action that Council was envolved in.

#### 55. EVENTS AFTER THE REPORTING DATE

The Municipality applied for a loan of R25 mil before year end for bridging finance provided by the Municipality for capital expenses incurred during the year under review. The loan was approved and received after year end, which will significantly improved the cash flow position of the Municipality.

An amount of R1,2m owing to TOR Construction is included in the creditors balance. This company has since been declared insolvent, and the tender process is underway to complete the work and to take over the retention period

#### 56. COMPARATIVE FIGURES

The comparative figures were restated as a result of the effect of Prior Period Errors (Note 48).

#### 57. GOING CONCERN ASESSMENT

Management considered the following matters relating to the Going Concern:

- (i) On 30 May 2012 the Council adopted the 2012/13 Budget, which indicated that the Budget was cash backed for the period. Financial constraints to finance capital projects, will be resolved by selling parts of the Municipalities land.
- (ii) Strict daily cash management processes are embedded in the municipality's operations to manage and monitor all actual cash inflows and cash outflows in terms of the cash-flow forecast supporting the Budget. The cash management processes is complemented by weekly and monthly reporting, highlighting the actual cash position, including the associated risks and remedial actions to be instituted.
- (iii) As the municipality has the power to levy fees, tariffs and charges, this will result in an ongoing inflow of revenue to support the ongoing delivery of municipal services. Certain key financial ratios, such as liquidity, cost coverage, debtors' collection rates and creditors' payment terms are closely monitored and the necessary corrective actions instituted.

Taking the aforementioned into account, management has prepared the Annual Financial Statements on the Going Concern Basis.

NETT SURPLUS FOR THE YEAR			4,237,278	13,344,801	-3.4
Details of material variances					
Revenue by source					
Explanations of variances on Revenue by Source are onl	ly provided where the bu	dget and the variance percentage is greater than 5%	,		
Rental of facilities and equipment		Higher occupancy of camping sites and community h	alls		
Fines		Increased law enforcement			
Licences and permits		Less income generated than expected			
Income for agency services		Increase in transactions processed			
Other Income		Increase in transactions processed Increase in building plan fees and electricity capital c	ontributions		
Surplus on sale of assets		Fewer assets disposed of than envisaged	or it ibutions		
QUI DIUS UIT SAIR UI ASSEIS					

NOTES TO THE FINANCIAL STATEMENTS		2011
Expenditure by nature	R	R
Experience by nature		
Working Capital Reserve	Revision of contribution greater than expected	
Collection Costs	Expected litigation re pension funds not realised	
Repairs and Maintenance	Capacity constraints	
Capital	Budget Actual	Variance
Land	Budget Actual	variance
